Professional Summary

B.Tech graduate with a strong foundation in programming and software development. Passionate about learning new technologies with hands-on experience building scalable, real-world applications that deliver efficient software solutions.

Education

- **B.Tech in Computer Science and Engineering (Artificial Intelligence)** | Budge Budge Institute of Technology, Kolkata | **CGPA:** 8.15 [August 2022 – July 2026]
- **Class XII** | ST. Stephen's School, Budge Budge | **Percentage:** 89 [August 2020 – July 2022]
- **Class X** | ST. Stephen's School, Budge Budge | **Percentage:** 87.4 [April 2007 – July 2020]

Skills

- **Programming Languages:** Java, JavaScript, Python, SQL
- **Core CS:** Data Structures and Algorithms, Software Development Life Cycle(SDLC), Object-Oriented Programming(OOP), Database Management System
- **Web Development:** HTML, CSS, Tailwind CSS, Bootstrap, MERN Stack (React JS, Node JS, Express JS, MongoDB), REST API's, CRUD Operations, JWT-based Authentication and Authorization, Deployment
- **Tools/Software:** Git, GitHub, MongoDB Compass, Google Cloud Platform(GCP), Postman, Google AI Studio
- **AI Fundamentals:** Machine Learning, Deep Learning, Large Language Models(LLM), Generative AI, Prompt Engineering
- **Soft Skills:** Problem Solving, Team Collaboration, Critical thinking, Effective communication

Projects

Code Reviewer GitHub link

- Developed an intelligent Code Reviewer web application using **React JS, Tailwind CSS, Node JS, Express JS**, and **large language models**. Designed to analyze source code, generate structured reviews, and suggest optimized versions in real-time.

Ayurveda Chatbot GitHub link

- Developed an AI-powered Ayurveda-based chatbot platform using **MERN Stack**, with JWT-based authentication and **Gemini LLM's** for **few-shot prompting**. Provides personalized health recommendations, and maintains dynamic chat history management, for secure context-aware user interactions.

Notes App GitHub link

- Launched a secure full-stack Notes App using **React JS, Tailwind CSS, Node JS, Express JS**, and **MongoDB** with JWT-based authentication and bcrypt-based password hashing. Implemented CRUD operations and designed responsive UI for seamless user experience.

ATS Resume Checker GitHub link

- Implemented an ATS Resume Analyzer using **Python** with **LLM** integration to parse resumes and evaluate job-description compatibility. Automated ATS scoring and structured feedback to improve resume alignment and keyword optimization.

Internships

Salesforce Developer Intern (Remote) [November 2023 - December 2023]

- Completed Salesforce Developer Super Set, covering **Apex Programming**, LWC, Business Process Automation, **CRM Customization**, **Custom Object Modeling**, Screen Flow Automation within Salesforce Environment.

Certifications

- Generative AI Foundations Certificate (upGrad)
- Full Stack Web Development using MERN (GENEX Engineering and Management Solutions)

Achievements

- Achieved **1st place** at the institute-level **Smart India Hackathon 2024** (internal round).
